

# CONICS LESSON 1

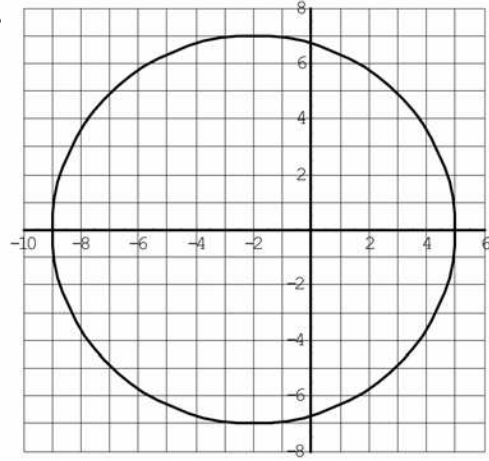

## PART II - CIRCLES

**Questions:** For each of the following graphs, write the equation, then state domain & range:

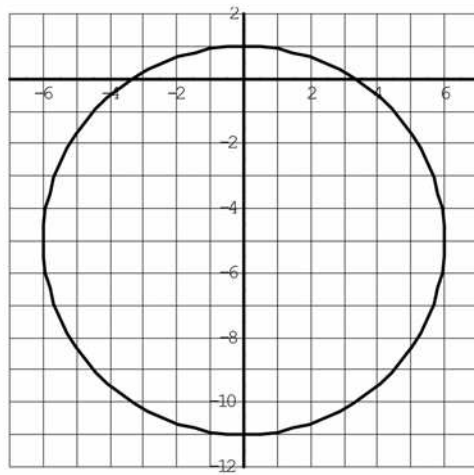

1.

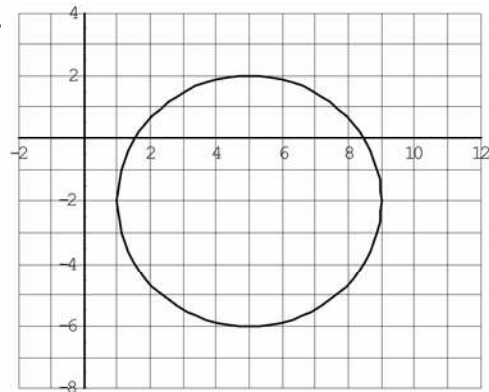

2.

3.

4.

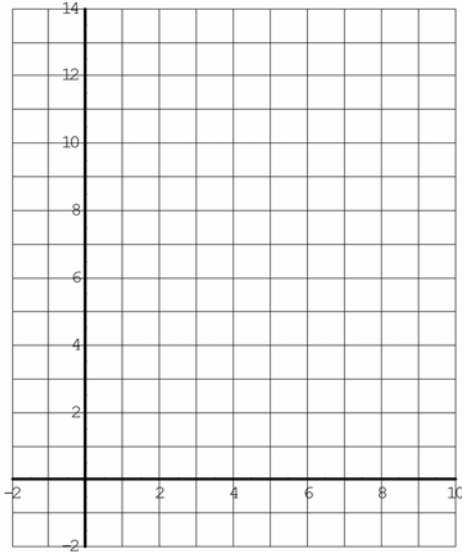

# CONICS LESSON I

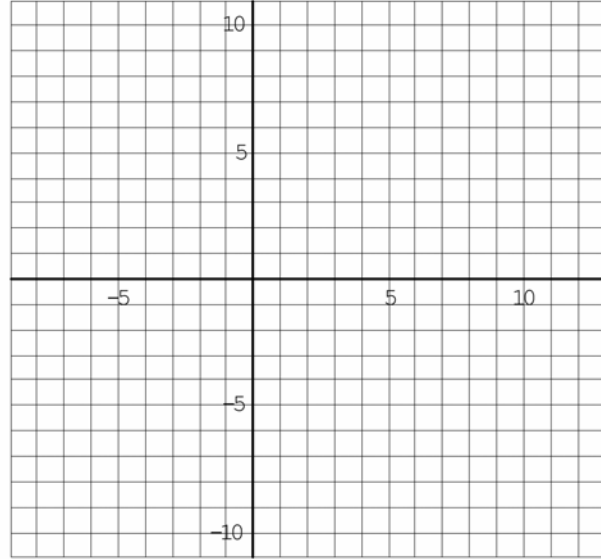

## PART II - CIRCLES

**Questions:** For each of the following equations, draw the graph and state domain & range:

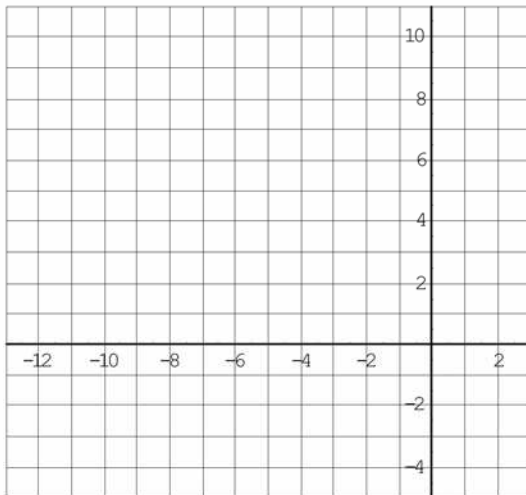

5.  $(x - 4)^2 + (y - 6)^2 = 16$

6.  $(x - 2)^2 + y^2 = 64$

7.  $(x + 5)^2 + (y - 3)^2 = 49$

8.  $x^2 + (y - 3)^2 = 100$
